

### Found Portrait Reflection

**Directions:** Reflect on your self portrait. Fill out the chart. Answer each question completely. Use complete sentences that restate the question. **Make your statement.** **Give a reason for your statement.** **Explain your reason.** **Each response should be 3 sentences each!**

**For example:** I chose the poem "The Loser" by Shel Silverstein because I often lose my work. When I lose my work and other items, I feel like a burden to my friends and family. Feeling like a "loser" is a common feeling and this poem reflects my day to day emotions.

**Another example:** My portrait includes the Renaissance philosophy humanism. Humanists often use realism in their art to show complex human emotions. My portrait shows deep human emotion because often humans feel unwanted or helpless as shown in my poem "Loser."
