

Sub Plans 11/9/2017

Thank you for subbing for me today!

On my desk I included seating charts. Students need to be in their assigned seats. They will try to tell you otherwise or just move on their own so be aware ☺

If they are out of hand or too noisy put them on a 3 strike system. Just saying "strike 1" should warn them. If they get to 3, take away music privileges during work time. Let me know which classes earn any strikes, and tell them you are going to keep me informed. Individual students can also earn strikes. Tell them that any student that earns 3 strikes will have their name written down.

Here is a schedule of my classes:

We don't have any bells so just set an alarm on your phone. I let them clean up 3 minutes before the "bell" rings. They need to be SEATED AND SILENT before you let them go! They know this.

Morning Meeting: 7:50-8am (let the kids into my room, they should go straight to their seats)

Period 1: 7th Grade World History

Period 2: 7th Grade World History

Period 3: 7th Grade World History

LUNCH

Period 4: 7th Grade World History

Period 5: Prep- No students

Period 6-Yearbook (I should be back by now)

Period 7: Advisory (Don't worry about it, I'll be there)

7th Grade World History: periods 1, 2, 3, & 4

We are finishing a CLOSE reading activity about Confucius. They have done all the hard work at this point, and need to finish the artistic element. Here is what you should do:

The pink and white sheet should be displayed as the students enter the room. It tells them what to do.

1. Pass out the Ch.17 Quiz Trade cards to students when they enter the room. Tell them to take care of them.
2. Once they are all seated, please go over what they should be doing based on the pink and white paper displayed on the projector. Give them 3 minutes to get out their materials and look up images of Chinese lanterns and Ming vases.
3. After the 3 minutes is up: Go over the agenda for the day: it's on the board next to the door.
4. Make sure students have their ch.17 Notes out and tell them they will be doing a quiz quiz trade about ch.17. All they need is their notebook and the card they got at the door. They know how to play. Set a timer for 4 minutes and let them play and say "On your marks, get set, go!!"
5. When 4 minutes is up, collect all the cards and save for the next class.

6. Make sure students return to their assigned seats by counting down from 10. Go over the directions for the artistic part of the Confucius CLOSE read project. They can use the ½ sheets of paper from the center of their desks. Remind them to write their names on the back that the whole thing is due at the end of class.
7. **THIS STEP IS VERY VERY IMPORTANT. With 10 minutes left at the end of class please pass out the Study Guides for the Unit 4 China test on Tuesday. Project my copy with the hints on using the projector. They just need to copy them down. Use this time to collect their drawings and the CLOSE Reading Questions.**
8. Pack up 3 minutes before they are supposed to leave. 5 seconds of silence before they can leave. Tell them we will do 5 seconds of drumming on Monday.

Thank you so much again! If ANY students give you a problem please write down their names in addition to any really helpful kids. I'm on campus so just text me if you need anything or need me to help explain something!

714-465-0157

You can write any notes on this paper! Thanks again and have a great day ☺
